The Beginning of the End.

The beginning of disease is a slight eb-ility or disorder of some of the vital organs, the stomach, the liver or the bowels usually. There are dyspeptic symptoms, the liver is troublesome, the skin grows tawny and unhealthy looking, there is pain in the right side or through the right shoulder blade. The climax is often an utter prostration of the physical energies, perhaps a fatal issue. But if the difficulty is met in time with Hostetter's Stomach Bitters, which is always effective as a remedy, and it should be resorted to at an early stage, there will be no reason to apprehend these injurious subsequent effects upon the system often entailed by entirely cured diseases. Far better it is, also, to employ this safe remedial agent in taver and some, and other malarial complaints, than quinine and other potent drugs, which, even when they prove effective for a time, ruin the stomach and impair the general health.

The delay caused by the efforts to catch land thieves has resulted in such an accumulation of business in the U. S. Land office at Washington that it will require sixty years to catch up, and not one thief has been caught. Thousands of dollars are annually paid to an army of spies, whose business it is to watch the home-seeker. The present administration of the U. S. Land department acts upon the principle that every man who wants a few acres of government land is a thief and needs watching.

The SENTINEL is receiving many commendations for its labors in behalf of Yuma county. Our faith in the future of this section has never been so, often when the outlook was anything but encouraging, to labor on, believing that the time would come when Yuma county's resources would be duly recognized. We believe that daylight is dawning, and we shall derive satisfaction from the consciousness that our efforts have contributed to bringing on the prosperity which we believe is near at hand. Yet there are a few who never miss an opportunity to give us a kick; but as they comprise those only who have either balked us on subscription or objected to presentation of bill for the same, we shall try and bear up, exercising a Christian spirit, while our reflections shall be similar to those of the man who was kicked by the burro.
